

AUTOSTART SETTING (IN SECONDS) AT WDRA RUN EVENTS

	Staged Minimum	Staged to Start	Time Out
ET & SUMMIT BRACKET FINALS	0.6	0.9	10
JUNIOR DRAGSTER	1.0	0.8	15

“Staged Minimum” is the amount of time the tire must be seen the stage beam to begin the Auto Start process.

“Staged to Start” is the amount of time both vehicle’s tires must be seen by each stage beam to begin the tree activation process. An addition .2 may be added to Accutime systems.

“Time Out” is the amount of time from when one car is pre-staged and staged and the other car is only pre-staged until the tree is activated, fired and the non-staged competitor receives a red light.
